

DATATEC TORNADO

What is our product

- Datatec Tornado is a high quality air filter that is designed and produced in Thailand. Our air filters fit in a vehicles standard air box. One of the main selling points is that our filter is reusable up to 100,000 km.

Why customers should use the tornado product ?

- Reusable and washable for 100,000 km
- Only need to use water to wash
- Increase horsepower by 3 to 10%
- Drop-In Performance filter that replaces factory air filter
- Saves Fuel
(Better Flow to the engine will make the acceleration better)
- Eco Friendly
(Not generating extra waste for the environment on non-washable air filters)

What is it made out of ?

- Outer structure is made of rubber that is strongly designed to withstand cars with great amounts of boost.
- Cloth-Made out of non-woven material that can filter dust up to 0.5 microns.
